

LACTOBACILLUS ACIDOPHILUS and **BIFIDOBACTERIUM BIFIDUM** are strains of microorganisms found in normal, healthy intestinal flora. These are specially cultured, selectively isolated pure strains which have been extensively researched at the University of Nebraska by Dr. Khem Shahani, Ph.D. They have been grown in natural media and stabilized both before and after freeze-drying with natural stabilizers.

Now available in tablet form, raspberry flavored **PRO-FLORA CHEWABLES** are perfect for those who do not like or cannot swallow capsules. Not recommend for children under the age of three years old.

STORE IN A COOL, DRY PLACE AND REFRIGERATE AFTER OPENING.
